## Introduction

### WELCOME TO MODOGROUP

The Latin word MODO has many meanings mainly, now, just now, new, something new. MODO is all about bringing a new and trendy interior collections of original and unique designs.

Modoled, Modobed, Modoti, and Modoline has merged into an International Corporation named MODOGROUP SYSTEMS INC. A Group of Companies catering mainly to the interior and exterior needs for the Hospitality, Corporate, and the Private sector. With our foreign partners we cater to local and International projects.

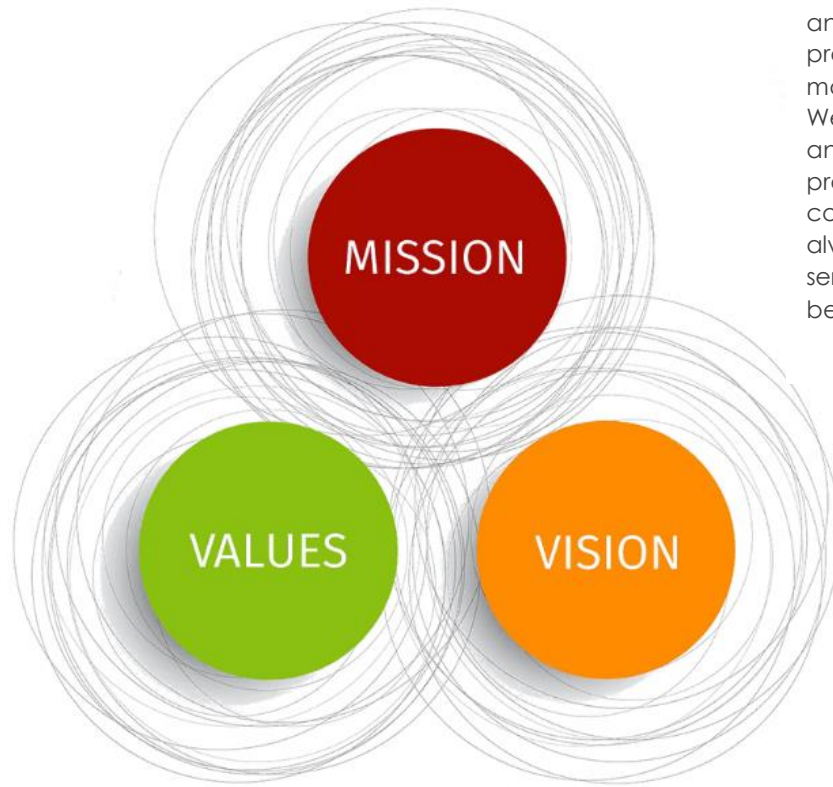

MODOGROUP, for all your Interior and Architectural needs, our in-house Architects, Interior and Lighting designers will guide you from Design to finishing, incorporating the best available environmental friendly materials available in the market today.

MODOGROUP is a universe of perspectives driven by design. Attuned to the evolving needs of our clients, industry and world culture, we work together to create distinctive environments that are defining the future of luxury.

MODO specializes in architectural lighting. It has a wide range of LED lighting fixtures and LED lighting systems. LEDMO intelligent lighting systems and LEDKO UL Listed / LED panels and tubes are sold to AMAZON ROBOTICS USA.

From a simple interior renovation or architectural plan, at MODO we partner with our clients to help them define and achieve their visions that extend well beyond the traditional boundaries of design.

## Our Mission

The MODO Team design and create furniture, lighting fixtures and interiors using only the best products and eco – friendly materials of the highest quality. We always consider functionality and the uniqueness of our products into our design. From concept to application, we always strive to render quality service and deliver products that best suit our clients' needs.

## Our Values

To continually improve our project quality, working methods and management systems through creativity and innovation in order to ensure our continual development as a quality driven design consultancy services business and as high-caliber professionals within our specialist fields. To express our passion in both INTERIORS and ARCHITECTURE through working closely together with our clients, consultants, contractors and suppliers.

## Our Vision

Aim to shape spaces with "timeless designs" and want to be globally recognized professional interior design company providing solutions in the field of high-end corporate, commercial and residential interiors.

## Design & Production Team

MODOGROUP has a great team, from design, to production, sales and after services. Our friendly staff is always ready to assist you.

### OUR TEAM

**ARIE WILLARD**  
CEO, Lead Designer

Dutch Industrial Designer noted in South East Asia for his enduring career. At a young age he developed already his artistic skills as the apprentice of the Dutch portrait painter Adrian van Loon, known for painting Royalties like the Queen of Holland, and the late opera singer Maria Callas. Arie his work began with the design of modular furniture and lighting fixtures, (**DE STIJL, MOBEL SYSTEMA**).

Soon he branched out into export companies where he created a diverse range of furniture, lamps, classical, and whimsical statuettes, and gift items, some of his clients were **Budweiser, Walt Disney, Laurel & Hardy, Three Stooges, Popeye, Max Fleischer (Betty Boop)** and **Warner Brothers (Looney Tunes)**, being exported Worldwide.

Arie completed the design concept dubbed as, The **Crescent and Star**, an ambitious 96 hectares sustainable man made Hotel, leisure concept in the Red Sea. The Crescent 4 km long, and 375 meter wide, the structure rises 6 meters above the water

surface and is designed to have minimal ecological impact on the seabed and the environment.

Today Arie design furniture and Lighting Systems, It's his passion to bring to life concepts that push the boundaries of uniqueness and functionality.

## **STEPHEN PALMA**

President, Computer / Lighting Engineer

Proud to be part of ModoGroup. Son of an entrepreneur, at his young age already exposed to the family business.

Always inspired with techniques, robotics, architecture and design. Now a Computer Engineer will give him a change to apply the latest technology to the fast moving LED Lighting and Furniture Systems.

## **TONI CRUZ**

Architect, Interior Designer

In house Architect and highly experienced in the field of industrial design that serves as a basis for many architectural applications for environmental and sustainable modular building systems, saving time and cost.

His combination of creative and engineering expertise, aims to balance engineering innovation, functionality, and aesthetics in creating products for small – specialized markets alike. Ricky led numerous projects related to design with effective collaboration, and end results, using the latest computer – aided design tools. His unique creative style set the trend for many years to come.

## **LOURDES LAPERAL**

Industrial Designer

Lourds does the work with a dimple and a smile very creative, determined to present a concept beyond your imagination. Her work is known to be playful yet pragmatic and functional, a creative combination that is the magic behind her work. She comes and goes through conventional time-- rethinking, reinventing, and creating new. The effect is a powerful reminder of the past and exploration into the now, creating a new experience for the user.
