

Cube Casa Waste Management System

Sanitank – The Smarter, Cleaner Choice

Forget about traditional septic systems that crack, leak, or contaminate groundwater.

Cube Casa proudly introduces Sanitank, a new-generation septic solution built for performance, longevity, and environmental responsibility.

Why Choose Sanitank?

Durable PP/PE Composite Construction

Resists corrosion, acids, and alkalis for long-lasting performance.

Smooth Interior Walls

Minimizes friction and buildup, ensuring optimal flow and easy maintenance.

Over 50 Years of Service Life*

Built tough to withstand time, even in challenging environments.

Impact Resistant in Low Temperatures

Performs even in colder climates without cracking or weakening.

Tight, Leak-Proof Seals

Prevents groundwater contamination and soil infiltration.

Easy, Fast Installation

Lightweight and modular—no heavy equipment required.

Eco-Conscious Design

Crafted from recyclable materials with a low carbon footprint.

*Service life may vary based on soil conditions, location, and use.

Upgrade Your Waste System with Confidence

Sanitank is the reliable, eco-smart septic tank solution—perfectly suited for every Cube Casa modular home.

How does Sanitank **work** ?
